Saturday, June 8, 2019 - 8:00 am - 5:00 pm

Clinical Implications: Craniofacial Anomalies & the Special Needs Dental Patient

Midwestern University College of Dental Medicine, in collaboration with Midwestern University Biomedical Sciences Program, and The AT Still University Research Institute Center for Oral Health Research Invite you to participate in the

3rd Annual Arizona Chapter of the American Association for Dental Research Scientific Symposium (AADR)

**Audience & Description:** The Symposium is designed to bring the Arizona dental and dental research communities together to improve the healthcare of the special needs patients, in particular, the Marfan syndrome patient.

**Guest Presenters:**

Rena N. D’Souza, DDS, MS, PhD, Professor of Dentistry, Assistant Vice President of Academic Affairs & Education, Health Sciences, Utah Health, University of Utah School of Dentistry
President, International Association Dental Research
Dr. D’Souza’s Presentation: How Science and Technology Advances Can Impact Oral Health: IADR’s Vision for a New Century

Sylvia Frazier-Bowers, DDS, PhD, Associate Professor, Department of Orthodontics
School of Dentistry, University of North Carolina, Chapel Hill
Dr. Frazier-Bowers’ presentation: Face Facts: Craniofacial Features of the Marfan Patient

Midwestern University College of Dental Medicine Arizona is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education.

ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Midwestern University College of Dental Medicine Arizona designates this activity for 7.5 continuing education credits.
